Solenoid valve cooling via LiBus

for M14x1.5

Part Number: LCZ 9662

Features

- The cooling liquid valve is designed for operation with cooling water only.
- With the cooling liquid valve, the cooling water quantity can be controlled (on/off) by means of LiBus module, by opening the cooling water inlet only when cooling is required.
- Operation up to $T = 155\text{ °C}$ possible.
- For safe operation of the cooling liquid valve with water above 100 °C , the free hose end of the cooling coil must be fixed at the outlet, as a steam blow may occur in the short

Technical Features

Connection 1 thread (inside)	M14 x 1,5
Weight	0.7 kg
