Solenoid valve cooling via LiBus

G3/8"(I) - G3/8" (A)

Part Number: LCZ 9771

### Features

- The cooling liquid valve is designed for operation with cooling water only.
- With the cooling liquid valve, the cooling water quantity can be controlled (on/off) by means of LiBus module, by opening the cooling water inlet only when cooling is required.
- For safe operation of the cooling liquid valve with water above 100 °C, the free hose end of the cooling coil must be fixed at the outlet, as a steam blow may occur in the short
